

Important Safety Information

To prevent the risk of harm to the user or damage to equipment, please read this information before installing or repairing the phone.

Warning

This means danger. It means that the action could cause bodily injury or death.

Caution

Misuse may cause personal injury or equipment damage.

- After reading this manual, please store it near the phone so others may easily refer to it.

Warning

Only trained and qualified service personnel should install, replace or service the phone.

Do not spill liquid (ex., water) on the phone. In case of spill, contact your service technician for assistance to avoid fire or electric shock.

If you see smoke or smell something burning, unplug the power cord and the phone line. Call your service technician for assistance.

Do not use the phone during a thunderstorm. Lightning strike may result in a fire, severe electrical or acoustic shock.

Do not tug the power cord or the phone line. This may result in a fire, an electric shock or equipment damage.

※ The above picture may differ from actual products.

Important Safety Information

..... ⚠ Caution

Ensure that children do not pull on phone cords. **This may injure children or result in equipment damage.**

The ear-piece houses a magnetic device which may attract pins or small metal objects. Keep handset clear of such objects and check before use.

Avoid placing the phone in an area that is dusty, damp or subject to vibration.

Choose a site that is dry and well ventilated.

Do not put the heavy things on the phone.

Do not drop or throw the phone.

Static electricity discharge will damage electronic components.

Keep out of direct sunlight and away from heat.

※ The above picture may different from actual products.

Important Safety Information

.....  **Caution**

Clean the phone with a soft, dry cloth only. Do not use volatile liquids such as petrol, alcohol or acetone as this may cause a fire or result in discoloration or damage to plastics. Do not clean with wax or silicon products as these may enter the equipment and cause operation to become unreliable.

No user serviceable parts inside. Do not insert a screw driver or any metal objects into the phone. This may cause electric shock or damage the equipment and will render the warranty void.

※ The above picture may differ from actual products.

Getting Started

- | | | |
|----|------------------------------|---|
| 1 | Handset | Used for handset call. |
| 2 | Earphone-Jack Socket | Used to connect optional headset to the phone. |
| 3 | Speaker | Outputs tones and voice. |
| 4 | Speed Button | Used to access speed dialing, speed programming, save number redial, and last number redial. |
| 5 | DND/Fwd Button | <p>The DND (Do Not Disturb) feature blocks all incoming calls. When DND is active, the red LED in this button is illuminated.</p> <p>It is also used to activate call forward, e.g. to another station or voicemail. When call forward is activated, the red LED flashes.</p> |
| 6 | Volume Button | Speaker toggles the speakerphone state, and the red LED is illuminated when the speakerphone is active. |
| 7 | Speaker Button | This button is used to put a call on hold or save information when programming. |
| 8 | Hold/Save Button | Used in conjunction with fixed and flexible features, and the function changes in relation to call progress, as indicated on the LCD display. |
| 9 | 3 Soft Buttons | Displays information about telephone status, dialing directories, and test message information. |
| 10 | LCD Display | Illuminates when the phone is ringing. |
| 11 | Visual Ringing LED | This button is used to initiate a call transfer (TRS) or to enter programming mode (PGM) |
| 12 | Trans/PGM Button | Some flexible buttons are pre-programmed in the system for line appearances, loop functions etc. The remaining flexible buttons can be user-programmed. |
| 13 | Call back Button | A station can initiate a call back request to a busy station. Once that station becomes idle, the initiating station is signaled. |
| 14 | Flexible Button | The volume button adjusts the audio levels for ringing, handset and speakerphone functions. |
| 15 | Hands-free Microphone | Microphone is used for hands-free speakerphone function. |

Getting Started

Cable Connection

Cable connections

- A** - Connect the telephone cord (curly cord) to the handset and the other end to the handset jack at the bottom of the telephone.
- B** - Connect the line cable to the port at the bottom of telephone and the other end to the wall socket.
- C** - Connect the Headphone to the headphone jack on the left side of the telephone. (As viewed from the front.)

Getting Started

1. Placing a Call

The following CO access code '0' can be changed by Admin Programming 107 depending on the user's needs.

ICM Line

CO Line

2. Answering an Outside Call

ICM Line

CO Line

3 Soft Buttons

3 Soft Button

The 3 Soft Buttons are located on the bottom of the LCD display. The function of each button changes, subject to call status and progress. The current functions are displayed on the LCD screen, directly above each button. For example, if the user calls a busy extension, busy tone will be heard and the busy status displayed. The LCD screen will display the busy message along with the different options available - "Message Wait", "Camp-On" and "Flash". By pressing the relevant button the desired feature is activated.

Basic Function

By pressing one of the 3 soft buttons you are able to select the indicated function. For instance, if you want to select call pickup (as shown below), press the first button on the left. If there are more than three functions available at any point, an arrow will be displayed on the LCD display. Use the navigation key to move the next or previous screen to display additional functions.

1. Idle

3 Soft Buttons are located below the LCD display.

- PICKUP** : press to pickup a call ringing within the same pickup group.
- CONF** : press to initiate & activate a conference.
- REDIAL** : press to redial last number called.

1.1 Pickup

A station can pickup a call ringing to an unattended station within the same pickup group by using the pickup procedure.

* Refer to ipLDK-60 system programming manual.

Press [PICKUP] button.

Talk

Basic Function

1.2 Conference

You can establish a **Conference** with up to 15 parties. The other parties in the **Conference** may be internal or external.

CALL TO STA 100
FEB 01 04 05:34 pm

Basic Function

18. PARK A CALL AND RETRIEVE A PARKED CALL

A call can be parked in a parking location and the call will be retrieved by dialing the location number. (The call can be picked up by other extension.)

- To park a call,
Press **[TRANS/PGM]** and dial the Park Location(601-610).
- To retrieve a parked call at any station,
Dial the Park Location (601-610).

19. NAME DISPLAY ON MY PHONE

Name can be displayed instead of station number.

- Press the **[TRANS/PGM]** button
- Dial "7 4"
- Enter your name (see Entering character table in page 55)
For example to enter the name "JOHN"
- Press the **[HOLD/SAVE]** button

20. Barge-In Monitor

Barge-in permits an authorized extension to intrude into other existing outside/internal calls. Between intruding extension and parties on initial calls a conference call is established. (Refer to the ipLDK-60 programming manual for detail.)

BUSY : STA 101
[CALLBK] CAMP (*) STEP
MSG CAMP-ON FLASH→

- MSG** : Press to leave your station number or message.
CAMP-ON : Press to send a call waiting tone to a busy station (indicating that they have a call waiting).
FLASH : Press to disconnect the line and re-seize.

BUSY : STA 101
[CALLBK] CAMP (*) STEP
← MONITOR

MONITOR : Press to listen to existing conversation (Barge-In Feature)

MONITOR STA 101
JOIN DROP

- JOIN** : Press to join the conversation during monitor
DROP : Press to drop the conversation

Basic Function

21. USE MY VOICE MAIL (VMIB CARD REQUIRED)

When VMIB is installed, Voice mail service can be used.

To record a personal greeting,

- Press the [TRANS/PGM] button and dial "6 1".
- Press # to start recording.

To forward my phone to Voice Mail,

- Press the [SPEAKER] button
- Press the [DND/FWD] button
- Dial the type of forwarding you want:
 - . Dial "1" for Unconditional
 - . Dial "2" for Busy
 - . Dial "3" for No Answer
 - . Dial "4" for Busy and/or No Answer
- Dial "#" (confirmation tone will be heard if forwarding has been set).

To retrieve messages,

- When Voice message is leaved on the station, phone LCD will display as below.

MSG: VMIB(2)		
PICKUP	CONF	REDIAL

Press the [CALL BACK] button.

MSG FROM: STA 100

Attendant Function

1. SET OR CHANGE THE DATE/TIME

- Press the [TRANS/PGM] button
- Dial “0 4 1”
- Enter Date as MMDDYY(MM: month, DD:day, YY:year)
- Press the [HOLD/SAVE] button
- Enter the Time in 24 hour format(1630 for 4.30pm)
- Press the [HOLD/SAVE] button

2. CHANGE DATE FORMAT

- Press the [TRANS/PGM] button
- Dial “0 4 4” to toggle the formats between DDMMYY and MMDDYY

3. ATTENDANT INTRUSION

The Attendant can intrude into a conversation between an extension and an outside line and create a 3-way conversation. To use attendant intrusion, Intrusion button is required to use intrusion and attendant intrusion feature must be enabled in Admin Program.

Refer to the Programming manual for ipLDK-60.

Flexible button for intrusion feature:

- Press the [TRANS/PGM] button
- Press the flexible button to be programmed
- Press the [TRANS/PGM] button
- Dial “8 6”
- Press the [HOLD/SAVE] button

To intrude into busy extension,

- Press the programmed Attendant intrusion button when you access busy extension.
(Intrusion warning tone will be provided to the extension and a 3-way conference call is established)

To intrude into busy line,

- Press the CO button of the outside line (Intrusion warning tone will be provided to the busy extension and a 3-way conference call is established)

Attendant Function

4. OVERRIDING AN EXTENSION IN DND MODE

Attendant can override station in DND.

- Call a station in DND(DND tone is heard).
- Dial “*” to override the extension

The station in DND will receive ring.

5. SETTING DAY / NIGHT/ WEEKEND MODE

When a CO call comes in the system, the destination of CO call can be changed according to ring mode. There are 5 ring modes – Day mode/Night mode/Weekend mode/On-demand mode/Automatic Ring mode. The destination of CO call can be set differently at each ring mode with ADMIN Program.

(Refer to ipLDK-60 Programming manual for detail)

To activate Day / On-Demand / Night / Weekend / Auto mode manually.

- Press the **[DND/FWD]** button at the Attendant Station

- Select the desired mode by dialing digit 1-5
(1: DAY, 2: NIGHT, 3: ON-DEMAND, 4: WEEKEND, 5: AUTO)
- Press the **[HOLD/SAVE]** button

Glossary of Terms

1	ICM	Intercom – describes internal calls within the telephone system
2	CO Line	Central Office Line – also known as a trunk line, exchange line or outside line
3	Speed Dial	A commonly used number stored in a speed bin for easy access
4	DND	Do Not Disturb – the station is blocked to all incoming calls
5	FWD	Forward – calls can be sent to another location such a voicemail or another station
6	DKTU	Digital Key Telephone Unit – an LG-Ericsson digital telephone
7	SLT	Single Line Telephone – an analogue telephone
8	VMIB	Voice Message Interface Board – LG-Ericsson integral Voice Processing card
9	CONF	Conference – where you can talk to 2 or more internal or external parties

Important Safety Information

To prevent the risk of harm to the user or damage to equipment, please read this information before installing or repairing the phone.

Warning

This means danger. It means that the action could cause bodily injury or death.

Caution

Misuse may cause personal injury or equipment damage.

- After reading this manual, please store it near the phone so others may easily refer to it.

Warning

Only trained and qualified service personnel should install, replace or service the phone.

Do not spill liquid (ex., water) on the phone. In case of spill, contact your service technician for assistance to avoid fire or electric shock.

If you see smoke or smell something burning, unplug the power cord and the phone line. Call your service technician for assistance.

Do not use the phone during a thunderstorm. Lightning strike may result in a fire, severe electrical or acoustic shock.

Do not tug the power cord or the phone line. This may result in a fire, an electric shock or equipment damage.

※ The above picture may different from actual products.

Important Safety Information

Caution

Ensure that children do not pull on phone cords. **This may injure children or result in equipment damage.**

The ear-piece houses a magnetic device which may attract pins or small metal objects. Keep handset clear of such objects and check before use.

Avoid placing the phone in an area that is dusty, damp or subject to vibration.

Choose a site that is dry and well ventilated.

Do not put the heavy things on the phone.

Do not drop or throw the phone.

Static electricity discharge will damage electronic components.

Keep out of direct sunlight and away from heat.

※ The above picture may different from actual products.

Important Safety Information

.....  **Caution**

Clean the phone with a soft, dry cloth only. Do not use volatile liquids such as petrol, alcohol or acetone as this may cause a fire or result in discoloration or damage to plastics. Do not clean with wax or silicon products as these may enter the equipment and cause operation to become unreliable.

No user serviceable parts inside. Do not insert a screw driver or any metal objects into the phone. This may cause electric shock or damage the equipment and will render the warranty void.

※ The above picture may differ from actual products.

Getting Started

- | | | |
|----|------------------------------|---|
| 1 | Handset | Used for handset call. |
| 2 | Earphone-Jack Socket | Used to connect optional headset to the phone. |
| 3 | Speaker | Outputs tones and voice. |
| 4 | Speed Button | Used to access speed dialing, speed programming, save number redial, and last number redial. |
| 5 | Dnd/Fwd Button | <p>The DND (Do Not Disturb) feature blocks all incoming calls. When DND is active, the red LED in this button is illuminated.</p> <p>It is also used to activate call forward, e.g. to another station or voicemail. When call forward is activated, the red LED flashes.</p> |
| 6 | Volume Button | Speaker toggles the speakerphone state, and the red LED is illuminated when the speakerphone is active. |
| 7 | Speaker Button | This button is used to put a call on hold or save information when programming. |
| 8 | Hold/Save Button | Used in conjunction with fixed and flexible features, and the function changes in relation to call progress, as indicated on the LCD display. |
| 9 | 3 Soft Buttons | Displays information about telephone status, dialing directories, and test message information. |
| 10 | LCD Display | Illuminates when the phone is ringing. |
| 11 | Visual Ringing LED | This button is used to initiate a call transfer (TRS) or to enter programming mode (PGM) |
| 12 | Trans/PGM Button | Some flexible buttons are pre-programmed in the system for line appearances, loop functions etc. The remaining flexible buttons can be user-programmed. |
| 13 | Flexible Button | A station can initiate a call back request to a busy station. Once that station becomes idle, the initiating station is signaled. |
| 14 | Call back Button | The volume button adjusts the audio levels for ringing, handset and speakerphone functions. |
| 15 | Hands-free Microphone | Microphone is used for hands-free speakerphone function. |

Getting Started

Cable Connection

3 Soft Buttons

3 Soft Button

The 3 Soft Buttons are located on the bottom of the LCD display. The function of each button changes, subject to call status and progress. The current functions are displayed on the LCD screen, directly above each button. For example, if the user calls a busy extension, busy tone will be heard and the busy status displayed. The LCD screen will display the busy message along with the different options available - "Message Wait", "Camp-On" and "Flash". By pressing the relevant button the desired feature is activated.

Basic Function

By pressing one of the 3 soft buttons you are able to select the indicated function. For instance, if you want to select call pickup (as shown below), press the first button on the left. If there are more than three functions available at any point, an arrow will be displayed on the LCD display. Use the arrow key to move the next or previous screen to display additional functions.

1. Idle

3 Soft Buttons are located below the LCD display.

- PICKUP** : press to pickup a call ringing within the same pickup group.
- CONF** : press to initiate & activate a conference.
- REDIAL** : press to redial last number called.

1.1 Pickup

A station can pickup a call ringing to an unattended station within the same pickup group by using the pickup procedure.

* Refer to ipLDK programming manual.

Press [PICKUP] button.
